DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to because the blocks in Fig. 5 are not labeled with appropriate legends. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 8-14, 16-20, and 22-32 are rejected under 35 U.S.C. 102(b) as being anticipated by any one of Taga et al., (U.S. Patent No. 5,471,333) or Electronics Letters, Vol. 31, No. 3, pp. 216-217(cited by applicant).

Any one of Taga et al., or the Nakazawa et al., article in Electronics Letters in Fig. 1 respectively show an optical soliton communication system comprising a

multiplicity of fiber lengths(5-6,L) of opposite sign dispersion and being formed as a multiplicity of unit cells. Thus, claims 8,16,22,and 29 are rejected.

As to claims 9-13, 17-20, 23-28, and 30-32, any one of the Taga et al., or Nakazawa et al., reference meet the subject matter of the claims(see Fig. 1 and corresponding discussion).

Conclusion

5. This is a continuation of applicant's earlier Application No. 09/083,966. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
